If an unarmed combatant falls to the floor of the ring or otherwise indicates that he or she is unwilling to continue because of a claim of a low blow, the contest or exhibition must be declared to be a technical knockout in favor of the unarmed combatant who is willing to continue. The provisions of this subsection do not apply to a contest or exhibition of mixed martial arts.

(Adopted 9/20/2022)

**NRUC 4.190 Fouls: Disqualification; withholding of purse.** (NRS 467.030, NRS 467.075) An unarmed combatant guilty of a foul or unsportsmanlike conduct in a contest or exhibition may be disqualified by the referee and his or her purse ordered withheld by a Commissioner, the Executive Director, or the Executive Director's designee. Disposition of the purse and the penalty to be imposed upon the unarmed combatant will be determined by the Commission.

(Adopted 9/20/2022)

**NRUC 4.200 Fouls: Intentional.** (NRS 467.030, NRS 467.075)

1. If the referee determines that a contest or exhibition may not continue because of an injury caused by an intentional foul, the unarmed combatant who committed the intentional foul loses by disqualification.

2. If the referee determines that a contest or exhibition may continue despite an injury caused by an intentional foul, the referee shall immediately inform the Executive Director or the Executive Director's designee and the judges and shall deduct two points from the score of the unarmed combatant who committed the intentional foul.

3. If an injury caused by an intentional foul results in the contest or exhibition being stopped in a later round or a period of rest:

(a) The injured unarmed combatant wins by technical decision, if he or she is ahead on the scorecards; or

(b) The contest or exhibition must be declared a technical draw, if the injured unarmed combatant is behind or even on the scorecards.

4. If an unarmed combatant injures himself or herself while attempting to foul his or her opponent, the referee shall not take any action in his or her favor and the injury must be treated the same as an injury produced by a fair blow.

5. If an unarmed combatant sustains a head cut from a headbutt or an intentional foul, the referee has the discretion to suspend the round to allow the injury to be addressed by the ringside physician and resume the round after the injury has been addressed.

(Adopted 9/20/2022)

**NRUC 4.210 Fouls: Accidental.** (NRS 467.030, NRS 467.075)

1. If a contest or exhibition is stopped because of an accidental foul, the referee shall determine whether the unarmed combatant who has been fouled can continue or not. If the unarmed combatant's chance of winning has not been seriously jeopardized as a result of a foul and if the foul did not involve a concussive impact to the head of the unarmed combatant who was fouled, the referee may order the contest or exhibition continued after a reasonable interval. Before the contest or exhibition begins again, the referee shall inform the Executive Director or the Executive Director's designee of his or her determination that the foul was accidental.

2. If the referee determines that the contest or exhibition may not continue because of an injury suffered as the result of an accidental foul, the contest or exhibition must be declared a no decision if the foul occurs during:

(a) The first three rounds of a contest or exhibition that is scheduled for six rounds or less; or

(b) The first four rounds of a contest or exhibition that is scheduled for more than six rounds.

3. If an accidental foul renders an unarmed combatant unable to continue the contest or exhibition after:

(a) The completed third round of a contest or exhibition that is scheduled for six rounds or less; or

(b) The completed fourth round of a contest or exhibition that is scheduled for more than six rounds,

↳ the outcome must be determined by scoring the completed rounds and the round during which the referee stops the contest or exhibition.

4. If an injury inflicted by an accidental foul later becomes aggravated by fair blows and the referee orders the contest or exhibition stopped because of the injury, the outcome must be determined by scoring the completed rounds and the round during which the referee stops the contest or exhibition.

5. The provisions of this section do not apply to a contest or exhibition of mixed martial arts.

(Adopted 9/20/2022)

**NRUC 4.220 Determination to stop contest or exhibition: Injury to unarmed combatant.** (NRS 467.030, NRS 467.075) The referee shall determine whether a contest or exhibition should be stopped because of an injury to an unarmed combatant. In making such a determination, the referee may consult with a ringside physician.

(Adopted 9/20/2022)

**NRUC 4.230 Determination to stop contest or exhibition: One-sided contest or exhibition; risk of serious injury.** (NRS 467.030, NRS 467.075)

1. The referee may stop a contest or exhibition at any stage if the referee determines that the contest or exhibition is too one-sided or if either unarmed combatant is in such a condition that to continue might subject the unarmed combatant to serious injury.

2. The referee shall stop a contest or exhibition of unarmed combat at any stage if the referee determines that both unarmed combatants are in such a condition that to continue might subject the unarmed combatants to serious injury. If a contest or exhibition is stopped pursuant to this subsection, the decision shall be deemed to be a technical draw.

(Adopted 9/20/2022)

**NRUC 4.240 Determination to stop contest or exhibition: Unarmed combatant not actively or earnestly competing.** (NRS 467.030, NRS 467.075) If the referee decides that an unarmed combatant is not actively or earnestly competing, the referee may stop the contest or exhibition before its scheduled completion, disqualify the unarmed combatant and recommend the purse of that unarmed combatant be held pending investigation by the Commission.  
(Adopted 9/20/2022)

**NRUC 4.250 Requirement to remain in the ring, fenced area; effect of failure to resume competition.** (NRS 467.030, NRS 467.075)

1. After the commencement of a contest or exhibition of unarmed combat, an unarmed combatant shall remain in the ring or, if the contest or exhibition is being held in a fenced area, the fenced area, until permitted to leave the ring or fenced area by the referee or a representative of the Commission.

2. If an unarmed combatant fails or refuses to resume competing when the bell sounds signaling the commencement of the next round, the referee shall award a decision of technical knockout to his or her opponent as of the round which has last been finished, unless the circumstances indicate to the referee the need for investigation or punitive action, in which event the referee shall not give a decision and shall recommend that the purse or purses of either or both unarmed combatants be withheld.

(Adopted 9/20/2022)

**NRUC 4.260 Gloves to be wiped by referee after fall of unarmed combatant.** (NRS 467.030, NRS 467.075)

1. Except as otherwise provided in subsection 2, before an unarmed combatant may resume competing after having been knocked or having fallen or slipped to the floor of the ring, the referee shall wipe the gloves of the unarmed combatant with a damp towel or the referee's shirt.

2. The provisions of this section do not apply to a contest or exhibition of mixed martial arts.

(Adopted 9/20/2022)

**NRUC 4.270 Procedure for counting; knockdown; knockout; technical draw.** (NRS 467.030, NRS 467.075)

1. When an unarmed combatant is knocked down, the referee shall order the opponent to retire to the farthest neutral corner of the ring, by pointing to the corner, and shall immediately begin the count over the unarmed combatant who is down. The referee shall audibly announce the passing of the seconds, accompanying the count with motions of his or her arm, with the downward motion indicating the end of each second.

2. The timekeeper, by effective signaling, shall give the referee the correct 1-second interval for the count. The referee's count is the official count. Once the referee picks up the count from the timekeeper, the timekeeper shall cease counting. No unarmed combatant who is knocked down may be allowed to resume competing until the referee has finished counting to eight. The unarmed combatant may take the count either on the floor or standing.

3. If the opponent fails to stay in the farthest corner, the referee shall cease counting until the opponent has returned to his or her corner and shall then go on with the count from the point at which it was interrupted. If the unarmed combatant who is down arises before the count of 10, the referee may step between the unarmed combatants long enough to assure himself or herself

that the unarmed combatant who has just arisen is in condition to continue. If so assured, the referee shall, without loss of time, order both unarmed combatants to go on with the contest or exhibition. During the intervention by the referee, the striking of a blow by either unarmed combatant may be ruled a foul.

4. When an unarmed combatant is knocked out, the referee shall perform a full 10-second count unless, in the judgment of the referee, the safety of the unarmed combatant would be jeopardized by such a count. If the unarmed combatant who is knocked down is still down when the referee calls the count of 10, the referee shall wave both arms to indicate that he or she has been knocked out.

5. If both unarmed combatants go down at the same time, the count must be continued as long as one is still down. If both unarmed combatants remain down until the count of 10, the contest or exhibition must be stopped and the decision is a technical draw.

6. If an unarmed combatant is down and the referee is in the course of counting at the end of a period of unarmed combat, the bell indicating the end of the period of unarmed combat must not be sounded, but the bell must be sounded as soon as the downed unarmed combatant regains his or her feet.

7. When an unarmed combatant has been knocked down before the normal termination of a period of unarmed combat and the period of unarmed combat terminates before he or she has arisen from the floor of the ring, the referee's count must be continued. If the unarmed combatant who is down fails to arise before the count of 10, he or she is considered to have lost the contest or exhibition by a knockout in the round containing the period of unarmed combat that was just concluded.

8. If a legal blow struck in the final seconds of a period of unarmed combat causes an unarmed combatant to go down after the bell has sounded, that knockdown must be regarded as having occurred during the period of unarmed combat just ended and the appropriate count must continue.

9. The provisions of this section do not apply to a contest or exhibition of mixed martial arts.

(Adopted 9/20/2022)

**NRUC 4.280 Resumption of count in certain circumstances.** (NRS 467.030, NRS 467.075)

1. If a knockdown occurs before the normal termination of a period of unarmed combat and the unarmed combatant who is down stands up before the count of 10 is reached and then falls down immediately without being struck, the referee shall resume the count where it was left off.

2. The provisions of this section do not apply to a contest or exhibition of mixed martial arts.

(Adopted 9/20/2022)

**NRUC 4.290 Adjudication of technical knockout.** (NRS 467.030, NRS 467.075)

1. If a contest or exhibition is terminated because an unarmed combatant is:

- (a) Unable to continue;
- (b) Not actively or earnestly competing; or
- (c) Injured.

↳ it may be adjudged a technical knockout to the credit of the winner.

2. Except as otherwise provided in subsection 3, a contest or exhibition which is won by other than a full count of 10 or the scoring of the judges must be adjudged a technical knockout to the credit of the winner.

3. The provisions of this section do not apply to a contest or exhibition of mixed martial arts.

(Adopted 9/20/2022)

**NRUC 4.300 Procedure when unarmed combatant has fallen through or been knocked through ropes. (NRS 467.030, NRS 467.075)**

1. An unarmed combatant who has been knocked or has fallen through the ropes and over the edge of the ring platform during a contest or exhibition:

- (a) May be helped back by anyone except his or her seconds or manager; and
- (b) Will be given 20 seconds to return to the ring.

2. An unarmed combatant who has been knocked or has fallen on the ring platform outside the ropes, but not over the edge of the ring platform:

- (a) May not be helped back by anyone, including, without limitation, his or her seconds or manager; and
- (b) Will be given 10 seconds to regain his or her feet and get back into the ring.

3. If the seconds or manager of the unarmed combatant who has been knocked or has fallen pursuant to subsections 1 and 2 helps the unarmed combatant back into the ring, such help may be cause for disqualification.

4. When one unarmed combatant has fallen through the ropes, the other unarmed combatant shall retire to the farthest corner and stay there until ordered to continue the contest or exhibition by the referee.

5. An unarmed combatant who deliberately wrestles or throws an opponent from the ring, or who hits the opponent when he or she is partly out of the ring and is prevented by the ropes from assuming a position of defense, may be penalized.

(Adopted 9/20/2022)

**NRUC 4.310 Determination of whether unarmed combatant is down; effect of hanging onto or being held up by ropes. (NRS 467.030, NRS 467.075)**

1. An unarmed combatant shall be deemed to be down when:

- (a) Any part of the unarmed combatant's body other than his or her feet is on the floor;
- (b) The unarmed combatant is hanging over the ropes without the ability to protect himself or herself and cannot fall to the floor; or
- (c) The unarmed combatant would have fallen to the floor but was held up by the ropes.

2. A referee may count an unarmed combatant out if the unarmed combatant is on the floor or is being held up by the ropes.

3. The provisions of this section do not apply to a contest or exhibition of mixed martial arts.

(Adopted 9/20/2022)

**NRUC 4.320 Announcement of winner. (NRS 467.030, NRS 467.075)** At the termination of each contest or exhibition that did not conclude in a no-contest, the announcer shall announce the winner and the referee shall raise the hand of the winner, if practical to do so.

(Adopted 9/20/2022)

**NRUC 5.010 Requirements for ring or fenced area; use of video screens.** (NRS 467.030, NRS 467.075)

1. Mixed martial arts contests and exhibitions may be held in a ring or in a fenced area.
2. A ring used for a contest or exhibition of mixed martial arts must meet the following requirements:
  - (a) The ring must be no smaller than 20 feet square and no larger than 32 feet square within the ropes.
  - (b) The ring floor must extend at least 18 inches beyond the ropes. The ring floor must be padded with ensolite or another similar closed-cell foam, with at least a 1-inch layer of foam padding. Padding must extend beyond the ring ropes and over the edge of the platform, with a top covering of canvas, duck or similar material tightly stretched and laced to the ring platform. Material that tends to gather in lumps or ridges must not be used.
  - (c) The ring platform must not be more than 4 feet above the floor of the building and must have suitable steps for the use of the unarmed combatants.
  - (d) Ring posts must be made of metal, not more than 3 inches in diameter, extending from the floor of the building to a minimum height of 58 inches above the ring floor, and must be properly padded in a manner approved by the Commission. Ring posts must be at least 18 inches away from the ring ropes.
  - (e) There must be five ring ropes, not less than 1 inch in diameter and wrapped in soft material. The lowest ring rope must be 12 inches above the ring floor.
  - (f) There must not be any obstruction or object, including, without limitation, a triangular border, on any part of the ring floor.
3. A fenced area used in a contest or exhibition of mixed martial arts must meet the following requirements:
  - (a) The fenced area must be circular or have at least six equal sides and must be no smaller than 20 feet wide and no larger than 32 feet wide.
  - (b) The floor of the fenced area must be padded with ensolite or another similar closed-cell foam, with at least a 1-inch layer of foam padding, with a top covering of canvas, duck or similar material tightly stretched and laced to the platform of the fenced area. Material that tends to gather in lumps or ridges must not be used.
  - (c) The platform of the fenced area must not be more than 4 feet above the floor of the building and must have suitable steps for the use of the unarmed combatants.
  - (d) Fence posts must be made of metal, not more than 6 inches in diameter, extending from the floor of the building to between 5 and 7 feet above the floor of the fenced area, and must be properly padded in a manner approved by the Commission.
  - (e) The fencing used to enclose the fenced area must be made of a material that will prevent an unarmed combatant from falling out of the fenced area or breaking through the fenced area onto the floor of the building or onto the spectators, including, without limitation, chain link fence coated with vinyl.
  - (f) Any metal portion of the fenced area must be covered and padded in a manner approved by the Commission and must not be abrasive to the unarmed combatants.
  - (g) The fenced area must have two entrances that have secure locking mechanisms approved by the Commission, the Executive Director, or a designee of either.

(h) There must not be any obstruction on any part of the fence surrounding the area in which the unarmed combatants are to be competing.

4. The promoter of a program of unarmed combat that consists of contests or exhibitions of mixed martial arts shall hang at least two video screens which meet the approval of the Commission, the Executive Director, or a designee of either, and which allow patrons to view the action inside the ring or fenced area.

(Adopted 9/20/2022)

**NRUC 5.020 Duration for contests or exhibitions of unarmed combat. (NRS 467.030, NRS 467.075)** Except with the approval of the Commission or the Executive Director:

1. A nonchampionship contest or exhibition of mixed martial arts must not exceed three rounds in duration.

2. A championship contest of mixed martial arts or any other mixed martial arts contest or exhibition which the Commission considers to be a special event must not exceed five rounds in duration.

3. A period of unarmed combat in a contest or exhibition of mixed martial arts must not exceed 5 minutes in duration. A period of rest following a period of unarmed combat in a contest or exhibition of mixed martial arts must be 1 minute in duration.

(Adopted 9/20/2022)

**NRUC 5.030 Method of judging for contests or exhibitions of mixed martial arts. (NRS 467.030, NRS 467.075)**

1. Each judge of a contest or exhibition of mixed martial arts that is being judged shall score the contest or exhibition and determine the winner through the use of a 10-point system. Under this system:

(a) If the unarmed combatants have competed for the entire round and there is no difference or advantage between the unarmed combatants, each unarmed combatant receives 10 points. This result is referred to as a 10-10 round and is subject to the following principles:

(1) A score of a 10-10 round should be extremely rare.

(2) A judge shall not score a round as a 10-10 round as an excuse because the judge cannot or will not assess the differences in the round.

(3) It is necessary to have a 10-10 round as a possible score, such as for scoring an incomplete round.

(4) If there is any discernible difference between the two unarmed combatants during the round, a judge shall not score the round as a 10-10 round.

(b) If an unarmed combatant wins the round by a close margin, the winning unarmed combatant receives 10 points, and the losing unarmed combatant receives 9 points. This result is referred to as a 10-9 round and is subject to the following principles:

(1) If a judge determines that an unarmed combatant has landed better strikes or utilized effective grappling during the round, even if by just one technique over the unarmed combatant's opponent, the judge shall score the round as a 10-9 round.

(2) A score of a 10-9 round is the most common score a judge assesses during a bout.

(3) It is imperative that a judge understand that a score of 9 should not be automatically given to the losing unarmed combatant of the round. A judge shall consider whether the losing unarmed combatant:

(I) Engaged in offensive actions during the round;

(II) Competed with the attitude of attempting to win the round; or

(III) Competed with the attitude of attempting just to survive the offensive actions of his or her opponent.

(c) If an unarmed combatant wins the round by a large margin, the winning unarmed combatant receives 10 points, and the losing unarmed combatant receives 8 points. This result is referred to as a 10-8 round and is subject to the following principles:

(1) For a round to be scored as a 10-8 round, the winning unarmed combatant must have:

(I) Dominated the action of the round;

(II) Had duration of the domination; and

(III) Impacted his or her opponent with effective strikes or effective grappling maneuvers, or both, that diminished the abilities of his or her opponent.

(2) A score of a 10-8 round is not the most common score for a round, but it is absolutely essential to the evolution of mixed martial arts and fairness to unarmed combatants that a judge understand and effectively use the score of a 10-8 round.

(3) A score of a 10-8 round does not require an unarmed combatant to dominate or to impact his or her opponent, or both, for the entire round.

(4) A score of a 10-8 round must be used by a judge when the judge sees verifiable results on the part of the unarmed combatant or both unarmed combatants.

(5) If an unarmed combatant has little or no offensive output during the round, the judge should normally award 8 points to the losing unarmed combatant instead of 9 points.

(6) In determining whether to score a round as a 10-8 round, a judge shall evaluate the three factors of impact, dominance and duration. If the judge assesses that two of the three factors are present, the judge shall seriously consider whether to score the round as a 10-8 round. If all three factors are present, the judge shall score the round as a 10-8 round.

(d) If one unarmed combatant completely overwhelms his or her opponent in effective striking or grappling, or both, and a stoppage of the bout may have been warranted, the winning unarmed combatant receives 10 points, and the losing unarmed combatant receives 7 points. This result is referred to as a 10-7 round and is subject to the following principles:

(1) For a round to be scored as a 10-7 round, the winning unarmed combatant must have:

(I) Landed multiple blows that diminished the unarmed combatant's opponent or executed grappling maneuvers that placed the unarmed combatant in dominant situations with impact being inflicted that visibly diminished the ability of the unarmed combatant's opponent to compete; and

(II) Overwhelmingly dominated the unarmed combatant's opponent during the entire round and inflicted such significant impact on the unarmed combatant's opponent that, at times, caused the judge to consider that the fight could have been stopped.

(2) A score of a 10-7 round should rarely be given by a judge.

(e) Each judge of a contest or exhibition of mixed martial arts that is being judged shall use the following judging criteria and priority for scoring a round:

(1) The judge shall first assess whether one of the unarmed combatants has an advantage in effective striking or grappling, or both.

(2) If, and only if, effective striking and grappling are even, the judge shall next assess effective aggression to determine the winner of the round. The judge shall not assess or consider effective aggression if effective striking and grappling are not even.

(3) If, and only if, the round is still even after considering the criteria set forth in subparagraphs (1) and (2), the judge shall assess cage or ring control to determine the winner of

the round. The judge shall not assess or consider cage or ring control if the criteria set forth in subparagraphs (1) and (2) are not even.

↳ In assessing the effectiveness of striking, grappling or aggressiveness when an unarmed combatant is in the top position or bottom position, the effectiveness of the unarmed combatant must be based upon the impactful or effective result of his or her actions, not merely whether the unarmed combatant is in the top position or bottom position.

(f) No fraction of points may be given.

(g) Points for each round must be awarded immediately after the end of the period of unarmed combat in the round.

2. After the end of the contest or exhibition, the announcer shall pick up the scores of the judges from the Commission's desk.

3. The majority opinion is conclusive and, if there is no majority, the decision is a draw.

4. When the Commission's representative has checked the scores, he or she shall inform the announcer of the decision. The announcer shall inform the audience of the decision over the speaker system.

5. For the purposes of this section:

(a) "Cage or ring control" must be assessed by determining which unarmed combatant is dictating the pace, place and position of the bout.

(b) "Dominance" means:

(1) With respect to striking, when the unarmed combatant forces his or her opponent continually to defend, with no counters or reaction taken when openings present themselves.

(2) With respect to grappling, when an unarmed combatant takes dominant positions in the bout and utilizes those positions to attempt submissions to end the bout or to attack. Merely holding a dominant position must not be a primary factor in assessing dominance, but rather it is what the unarmed combatant does while holding those dominant positions that must be assessed.

(c) "Duration" means the time spent by one unarmed combatant effectively attacking, controlling and impacting his or her opponent, while his or her opponent offers little or no offensive output. A judge shall assess duration by recognizing the relative time in a round when one unarmed combatant takes and maintains full control of the effective offense. Duration may be assessed both standing and grounded.

(d) "Effective aggressiveness" means effectively and aggressively making attempts to finish the bout, with an emphasis on the effectiveness of such attempts. Chasing after an opponent with no effective result or impact must not be factored into a judge's assessment of effective aggressiveness.

(e) "Effective grappling" means the successful execution of takedowns, submission attempts and reversals and the achievement of advantageous positions that produce immediate or cumulative impact with the potential to contribute to the end of the match, with the immediacy of the impact being weighed more heavily than the cumulateness of the impact.

(f) "Effective striking" means legal blows that have an immediate or cumulative impact with the potential to contribute to the end of the match, with the immediacy of the impact being weighed more heavily than the cumulateness of the impact.

(g) "Impact" assesses whether an unarmed combatant impacts his or her opponent significantly in the round even if the unarmed combatant may not have dominated the action in the round. It is assessed by observing visible evidence such as swelling or lacerations. It is also assessed when an unarmed combatant's actions using striking or grappling, or both, lead to a diminishing of his or her opponent's energy, confidence, abilities and spirit. When an unarmed

combatant is impacted by strikes, by lack of control or ability, it can create defining moments in the round and must be assessed with great value.

If the unarmed combatant’s chance of winning has not been seriously jeopardized as a result of the foul and if the foul did not involve a concussive impact to the head of the unarmed combatant who has been fouled, the referee may order the contest or exhibition continued after a recuperative interval of not more than 5 minutes. ↳ the outcome must be determined by scoring the completed rounds and the round during which the referee stops the contest or exhibition.

5.
